

CHILDREN'S *VIRTUAL WATER FESTIVAL*
SEPTEMBER 23, 2021

CATEGORY – WATERSHEDS

1. THE WATER CYCLE - NOAA

National Oceanic and Atmospheric Administration (NOAA)

<https://oceantoday.noaa.gov/watercycle/>

***DESCRIPTION:**

In this lesson, you will:

Learn how the water cycle is how water continuously moves from the ground to the atmosphere and back again. As it moves through this cycle, it changes forms. Water is the only substance that naturally exists in three states on Earth – solid, liquid, and gas.
